#### STATEMENT AS OF JUNE 30, 2019 OF THE BLUE CROSS COMPLETE OF MICHIGAN LLC

#### NOTES TO FINANCIAL STATEMENTS

#### 1. Summary of Significant Accounting Policies and Going Concern

Accounting Practices

The financial statements of Blue Cross Complete of Michigan LLC (the Company) are presented on the basis of accounting practices prescribed or permitted by the Michigan Department of Insurance and Financial Services (DIFS).

The Michigan DIFS recognizes only statutory accounting practices prescribed or permitted by the State of Michigan for determining and reporting the financial condition and results of operations of an insurance company, and for determining its solvency under the Michigan Insurance Law. The National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures Manual (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Michigan. The State has adopted certain prescribed or permitted accounting practices that differ from those found in NAIC SAP. Specifically, the State requires maternity case receivables due from the Department of Community Health to be reported on the health care and other amounts receivable line on page 2 of the Annual Statement. In NAIC SAP, this receivable is reported on the uncollected premiums and agents' balances in the course of collection line. This reclass does not have any monetary effect on net income, surplus or risk based capital. Also, effective January 1, 2018 DIFS requires Passthrough funds to be presented net within general administrative expenses. In NAIC SAP, the Passthrough funds would be reflected gross in revenue and medical expense. This reclass does not have a monetary effect on net income and surplus, nor prevents a regulatory event with regards to risk based capital.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Michigan is shown below

Change in Incurred Claims and Claim Adjustment Expenses
Reserves as of December 31, 2018 were \$71,791,162 for incurred claims and claim adjustment expenses. As of June 30, 2019, \$59,947,583 has been paid for incurred claims and claim adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$7,711,478 as a result of the re-estimation of unpaid claims and claim adjustment expenses. Therefore, there has been favorable prior year development of \$4,132,101 during 2019 for the year ended December 31, 2018. The favorable reserves developments are attributable to claims settled for amounts less than originally estimated, primarily due to lower health care cost trends as well as the actual claim submission time being faster than assumed in establishing the accrued medical expenses in the prior year. These adjustments are generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased as additional information becomes known regarding individual claims.
